

WOODINGS NAMES SAXINGER AS PPT ENGINEERING MANAGER

Joseph Saxinger officially joined the Woodings Industrial team as Engineering Manager of the PPT facility. Saxinger, who brings more than 25 years of experience to the job, will oversee engineering activities, manage projects, provide customer support, and will ensure that Woodings provides customers with the highest level of equipment and technical support.

“Woodings has built an incredible reputation for top-notch design and engineering work. I am proud to take on the role of Engineering Manager here and I am looking forward to continuing and building on the impressive work this company does for its customers everyday,” said Saxinger.

An experienced and skilled engineer and manager, Saxinger has a broad knowledge of rolling mills and a proven record of managing projects and high performance engineering teams to successful outcomes. Saxinger brings over 25 years of domestic and international experience, including 15 years of engineering and project management at SMS Demag, a renowned leader in developing, designing, and building turnkey plants and machinery for the steel industry.

Woodings General Manager of Engineering, Al Colucci, stated, “Engineering has been a hallmark of Woodings ongoing success since it’s founding in 1883. Joe brings tremendous experience and skills to Woodings that will allow us to continue to exceed our customers’ expectations for innovative design and reliable equipment.”
